# INTERNATIONAL PROGRAMMES

UNIVERSITY OF APPLIED SCIENCES

## Teaching Methods

### Student-centered Learning

At Dania students are expected to play an active role in their own learning process. We aim at providing student-centered learning and open debate during class.

Working with projects and problem-based learning is essential. This requires active participation rather than passive listening. We use different teaching methods like traditional lectures, class teaching, cases and presentations.

Our students gain the ability to work analytically and creatively in a problem-solving environment.

### Theory and Real Life Combined

Classes go on field trips and we use guest lectures from local businesses. All programmes are based on the latest knowledge from national and international research. We focus on turning this knowledge into new and innovative solutions to real-life problems.

## At Dania we do Things Differently

We are not a classic university with large classes taught in auditoriums. We know the students. Classes are small. Lecturers are also persons you can relate to.

Studying here means you will get the best possible education related to the business world outside the school walls.

### Applied Theory in Action

The applied theory is our strength in tourism, marketing, IT and any other education we offer. You learn how to do things and not just the theory. At Dania you are much more than just a number. You are a person with an open mind and a desire to know many new cultures. We offer you that opportunity in a safe learning environment.

## Approved Quality

All of Dania's programmes are approved and closely quality monitored by the Danish Academy, University of Applied Sciences.

Danish Academy, University of Applied Sciences has achieved the European EFQM quality award Committed to Excellence

# One Academy Two International Campuses

In international terms, Dania is a university of applied sciences. Dania provides a variety of study programmes in 8 different Danish cities.

Around 2500 students attend our programmes. We have more than 300 international students.

### International Programmes

At the moment we are offering five different programmes in

English. These international programmes are based in two cities - *Viborg* and *Randers*.

### International Campus Randers

The campus in Randers is the largest of Dania's many campuses, offering six different programmes. Three of these are International Programmes. The academy is situated on the outskirts of the city surrounded

by nature and only three minutes away from the largest shopping centre in Randers.

### International Campus Viborg

The Viborg campus lies in the city centre. In Viborg we offer four different programmes of which three are taught in English. It is a brand new campus hosting a number of educational institutions.

# Many Good Reasons to STUDY IN DENMARK

Denmark is a small country with 5.3 million inhabitants and a size of only 43 thousand square kilometers. Still it is one of the most modern and developed nations in the world.

Denmark is highly dependent on brain power since we do not have many natural resources. This is why the educational system focuses hard on developing human resources.

Denmark is known for its high standard of living and for a well-developed welfare system.

You may know some of the most famous products from Denmark, including B&O high-end television and stereo equipment, Novo pharmaceuticals, Carlsberg and Tuborg beer, Maersk transport and LEGO toys. We also export a lot of agricultural products and a number of other well-known industrial products, including Grundfos pumps and Danfoss valves.

Denmark is a constitutional Monarchy and a representative democracy. Every Danish citizen over 18 has a vote to elect the politicians of the country.

Denmark is in general a free and openminded society, but as in any other culture there are a few everyday habits and common practices that are good to be familiar with. In order to give new students a good start, Dania offers a thorough introduction to Danish society.

# Looking for The Happiest Place on Earth?

Pack up and  
move to  
**Denmark!**

## Denmark, the Happiest Place on Earth

**Denmark has taken the top spot in the World Happiness Report.**

According to the World Happiness Report published by The Earth Institute at Columbia University and commissioned for a United Nations conference on happiness, Denmark is the happiest country in the world.

The 158-page report, the first of its kind ever, ranks countries on a “life evaluation score” that takes into account a variety of factors such as wealth,

education, government transparency, political freedom and job security.

„It is no coincidence that the happiest countries in the world tend to be high-income countries that also have a high degree of social equality, trust and quality of government”, write the authors of the study in the introduction.

# Campus Randers

**Campus Randers Welcomes You**  
Randers, with some 62,000 inhabitants, is situated on the Randers Fjord near the mouth of the river Gudenåen on the east coast of Jutland just 35 km north of Denmark's second largest city, Aarhus.

Campus Randers offers a total of 6 different programmes with around 200 international students from all around the world. 3 programmes are taught in English.

### Living in Randers

It is easy to find accommodation in Randers and the prices are low compared to other cities in Denmark.

Public transportation is very good with direct connections from the dormitory and city centre to the academy.

# Living in Randers

## Randers – City and Countryside

Randers is a modern thriving city with many stores, malls, tourist attractions, lots of different sports clubs and many cultural activities.

Randers is a safe place to live with a friendly atmosphere and an extraordinarily low crime rate.

The main tourist attraction of Randers is *The Rain Forest*, a beautiful representation of the World's rain forests inside three domed glass buildings situated on the banks of the river *Gudenåen*. Tourists come from many countries to see the animals and plants indigenous to the world's rain forests.

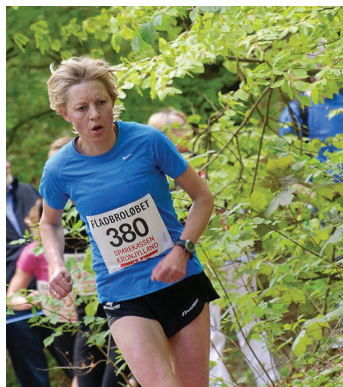

Randers' medieval town centre is a picturesque pedestrian area.

The *Randers Festival* that takes place every year in early August is a week filled with fun and entertainment featuring all kinds of live music.

*Værket* is the place to go for concerts, theatre plays, opera and much more. *Værket* is based in the old city power station that has been transformed into a centre for the performing arts.

An ideal way of touring the town and the surrounding countryside is by bicycle, and if you like canoeing several outlets rent out canoes for excursions.

Moreover, the river *Gudenåen* and *Randers Fjord* offer great game fishing for salmon and trout.

Additional info [www.visitranders.dk](http://www.visitranders.dk)

# Campus Viborg

## Everything in one Place

Dania in Viborg is a brand new campus in the centre of the city where all schools of higher education in Viborg are located.

Campus Viborg offers an international environment with students from many countries. At Campus Viborg you will experience an open and friendly environment where your personal wellbeing is in focus.

Around the Campus grounds you will find new dorms, an international students' house, stadium, cinema, fitness centre, bowling lanes, etc.

# Living in Viborg

Viborg Municipality is the home of 100,000 people. The town itself has 45,000 inhabitants and is the regional capital of the Central Denmark Region.

In medieval times, Viborg was the capital of Jutland. The city centre around the old Roman cathedral still has a flair of medieval times. It is also the home of the High Court for western Denmark and many organisations and industries.

The area is also a NATO centre with many international employees. Viborg has a very active sports life and is well known for its handball and football teams. You will also find a basketball club as well as a lot of other sports facilities and gyms.

Due to the NATO Centre as well as the increasing number of international students in the town, the municipality takes pride in being an internationally oriented city that welcomes incoming students and employees from all over the world.

Viborg's status as regional administrative centre, as well as the increasing number of both Danish and international students, is reflected in the evening and night life of the city. But still, Viborg offers a high level of security with a very low crime rate.

Additional info [www.visitviborg.dk](http://www.visitviborg.dk)

# Student life

There are a lot of opportunities for students to explore during their time in Viborg and Randers. There are modern facilities for almost all kinds of sports. The international office will support you in finding the right sports club for you. The most popular sports in the areas are football, handball and basketball, but there are many activities to choose from. There are state-of-the-art swimming facilities in both cities.

Cultural life is very diverse ranging from theatres, cinemas and different venues for all kinds of music. In both Viborg and Randers there are good shopping facilities with a variety of shopping centres and pedestrian areas.

*"The best part of being a student in Viborg is that you get to meet warm people who are becoming your new family. Studying abroad is a unique experience that makes you know yourself better by getting to know people from all around the world. I love Viborg because of its nature and peaceful atmosphere"*

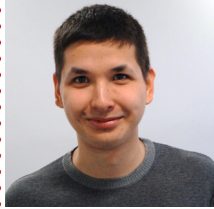

**Georgiana Mitronici**  
Marketing Management

*"I love being a student in Randers. There are so many opportunities here. The best thing is that at Dania we work closely with companies on a daily basis and Randers has a vibrant business life which enables us to work with relevant tasks for our education. A great city overall. Business and fun-wise."*

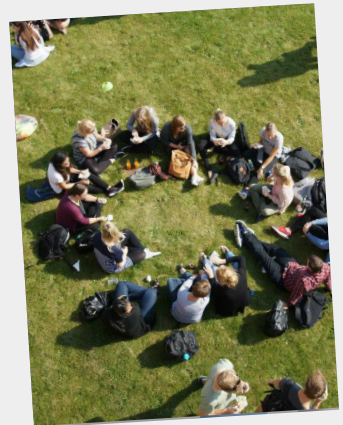

**Kasper Nørbæk**  
Marketing Management

"Danes are so happy. One cannot fail to notice this, and it is rooted in the belief that everything will be all right. In England people are always so anxious and stressed, and I used to be like that, too. However, after six months here, the Danish way of life has changed my attitude and manner of living. Now I am also an optimist and I believe everything will be OK"

Dusan Do Van  
Exchange Student

## AP Degree Programmes

An Academy Profession (AP) Degree Programme is a higher-education programme with a duration of two years that combines theoretical studies with a practice-oriented approach. **The AP Degree represents the first 4 semesters of a Bachelor's Degree.**

AP Degree Programmes are offered at Academies of Professional Higher Education in Denmark.

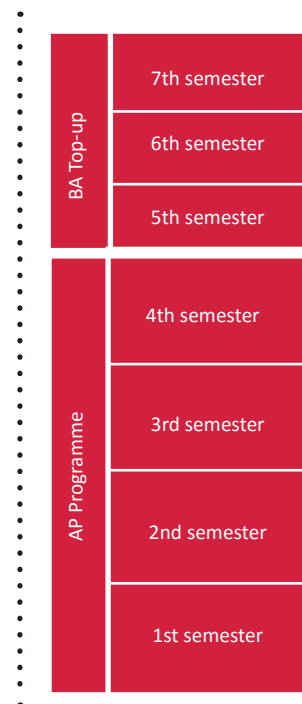

The Academies have fewer students than universities since they offer a limited number of study programmes, facilitating close contact between students and companies in the region.

The AP Degree Programmes make use of the European Credit Transfer System (ECTS), a common European standard, where 60 Credits correspond to one year of full-time studies at higher-education level.

### Career Prospects

The AP Degree Programmes are designed in close collaboration with representatives from relevant industries to ensure that the graduates get the qualifications and skills needed by the industry. The educations include guest lecturers from private businesses, field visits and a 3 months' internship in a Danish or foreign company.

The close contact with businesses gives the students an excellent starting point for finding a job after graduation.

# Why AP Degrees are so Unique!

If you dream of a career in business and industry, Dania's programmes are the right thing for you.

Our AP programmes prepare the students for practical tasks on an analytical basis and typically lead to jobs in middle-management positions.

An AP programme has a well-balanced combination of theory and practice.

All our study programmes are developed in close collaboration with representatives from the professional industries.

Field trips are part of our programmes and we invite guest speakers from relevant industries to the academy.

All our AP programmes are equivalent to 120 ECTS. All our programmes are characterized by applied learning and theory combined with 3 months of internship. During the internship the student and internship company have good opportunities to get to know each other better. This is quite often the start of a long lasting professional relationship.

The internship also gives the students an opportunity to use the acquired theory in practice.

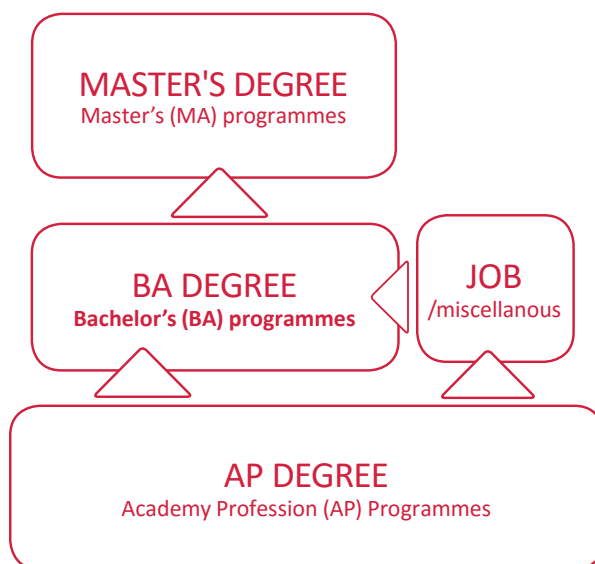

## BA top-up Programmes

Many of the above qualities are also applicable to the top-up Bachelor programmes.

The BA top-up programmes are aimed at a specific profession which makes the candidates more attractive for the companies.

With our state-approved BA degree you can also choose to continue into Master programmes in Denmark or abroad. The BA programmes also include a 3 months' internship in Denmark or abroad, which is a very good opportunity to start your future career.

The top-up programmes are developed in close cooperation with businesses and the industry.

# AP Degree in MARKETING MANAGEMENT

## JOB OPPORTUNITIES:

- Marketing Coordinator • Sales Supporter
- Advertising Manager • Communications Coordinator
- Export Sales Representative • Area Sales Manager
- Project Coordinator ...

Advertising & Online Promotion

Business Management

Executive

Development

Promotion

## The Programme

Dania offers five lines of specialization within Marketing Management

- Advertising & Online Promotion (Campus Randers)
- Business Economics (Campus Randers)
- Executive (Campus Viborg)
- Development (Campus Viborg)
- Promotion (Campus Viborg)

Marketing is the main focus area in all specializations, so your choice depends on your personal interests.

*"At Dania you learn about the many steps that businesses have to take to become succesful in a modern competitive market"*

## Choose between five specializations

### Campus Viborg

- **Executive**  
If you see yourself as the leader of tomorrow
- **Development**  
If your interests are business development in new and emerging markets
- **Promotion**  
If you are looking for a career in modern marketing and communication

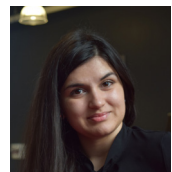

### Campus Randers

- **Advertising & Online Promotion**  
If you are interested in modern promotional tools used in marketing
- **Business Management**  
If you are aiming at a career in business management

The specializations give you a chance to focus on what you find interesting in the vast field of marketing. Let your interests decide your choice.

*"Taking my education at Dania is one of the best choices I've made. I received great preparation for my future professional activity. Everything is interconnected! It's great!"*

# AP Degree in MARKETING MANAGEMENT

## Marketing Management

Are you planning a career in marketing and sales? Would you like to experience real-world business life? Do you want a truly international education? Then the Marketing Management Programme is the perfect education for you.

## Programme Objective

The purpose of the programme is to qualify graduates for independent work on analysis, planning and implementation of marketing tasks using cultural, organizational, financial, technological and marketing skills obtained during the studies.

## Degree Obtained

AP Degree in Marketing Management

## Duration and ECTS-Credits

The AP Degree in Marketing Management is a two-year, full-time programme that corresponds to 120 ECTS-credits. An AP Degree represents the first two years of a Bachelor's Degree. In order to obtain a full BA Degree, AP graduates must enroll and complete a Top-up study programme in Denmark or abroad.

## Teaching Methods

The applied teaching methods aim at developing students' independent, innovative and cooperative skills. The classes are small (typically between 20 and 30 students) and students are encouraged to contribute actively to classroom discussions. Project and group work are essential parts of the studies.

Attendance to lectures is compulsory.

During the programme, a number of tests and exams must be passed in order to move on to the next semester.

## Study Programme

The two-year study programme is divided into four semesters.

## Compulsory subjects

- International Marketing Management
- Global Communication
- Understanding the Business
- Project Management
- Organization
- Logistics
- Design
- Financial Management
- Planning and Implementing Marketing Decisions
- Global Economy and Development
- Business Law
- Internationalization
- Specialisation Subjects
- Internship
- Final Exam Project

## Internship

The fourth semester includes an internship, usually lasting three months, in a Danish or foreign company, followed by the final exam project.

# AP Degree in AUTOMOTIVE MANAGEMENT

## JOB OPPORTUNITIES:

- Diagnostics Technician
- Consultant
- Floor Manager
- Garage Manager

**What's your favorite thing on wheels?**

### Automotive Management

The first three semesters of the two-year programme are taught at Dania in Viborg.

During the last semester there is a 3-months' internship period and time for the students to write their final examination project.

### Programme Objective

The programme qualifies the graduates to work independently on diagnostics, repair and optimization of automotive technology. It also qualifies the graduates to take on the overall management of a garage, as well as administration and training of staff.

### Teaching and Working Methods

The teaching methods are a combination of group instruction, project work in groups and individual work, typically involving interdisciplinary issues and always on an application-oriented basis.

### Compulsory Subjects:

- Component Technology and Design
- Electronic Principles and Systems
- Driving Systems and Vehicle Dynamics
- IT Diagnostic Systems
- Sales, Service and Customer Care
- Operational and Financial Management
- HR Management
- Organisation, Communication and Project Management.

### Elective Subjects:

Varying optional elements are offered during the first three semesters. Elective subjects could for instance be:

- Hybrid / Electric Cars
- Data Logging and Analysis
- Optimisation of Bodywork
- LEAN Optimisation
- Entrepreneurship

### Specialisation

The specialisation is based on the students' choice of optional elements and location for the internship.

### Internship

The students will complete their practical training in one or more companies.

Dania offers a number of internships in Denmark, in Europe, the USA and other countries.

### Final Examination Project

In the final examination project each student must demonstrate his or her ability to combine theory and practice. Supervisors from the automotive business will be available to the students for this project.

**Accelerate your career  
with the Automotive Management Programme!**

### The Broad Field of IT Technology

IT Technology is more than bits and bytes.

Involving users in IT, management and planning requires skills in sales, innovation, communication and marketing.

### Career Options

The IT Technology programme prepares you for two roles: the consultant and the technician.

The IT Technology programme includes business and technology as well as general studies to give you a solid base for a number of job positions such as Project Manager, Consultant or Network Technician.

### The Programme

The two-year programme is divided into four semesters. The first three semesters are taught at Dania Viborg and during the last semester there is a 3 months' internship and time to write your final examination project.

### Compulsory Subjects

- General studies, including Communications, Technical Documentation, Technical Mathematics, Information Technology and Electronics
- Business Studies, including

Business Purchasing and Sales, Business Economics, Business Organisation, Project Management, Environment and Security, and Quality

- Technology, which includes the base electives within either Electronics or Communications Technology.

### Specialisations

- Networks
- Electronics

### Networks

We look at everything from signal propagation at the physical level to application protocols such as HTTP.

We concentrate on IP networks and supporting concepts, but also look at other types of industrial networks, such as CanBus for automotive control and the maritime Automatic Identification System (AIS).

### Network Practical

This area concentrates on setup, operation and troubleshooting of IP based networks.

### Server

Setup, operation and troubleshooting of Microsoft Server products (including SQL Server) is the main focus, but we also cover aspects of Linux Server (Ubuntu) setup and use.

### Programming

Work with network-related programming concepts (web services, app programming, server side applications, client side JavaScript, etc.) using ASP.NET, PHP/MySQL, Android and/or Apple iOS (iPhone/iPad), depending on the students' particular interests and previous experience.

### Electronics

#### Embedded systems

This subject focuses mainly on design, construction, programming and testing in the area of embedded systems.

#### Electronics

This subject will develop the students' skills in the areas of electronic technology, the design process of electronic systems, production technology and management of electronic devices and in the use of relevant CAE and simulation tools.

# AP Degree in HOSPITALITY & TOURISM MANAGEMENT

## CAREER PROSPECTS:

- Restaurant Manager • Marketing Manager
- Tourism Manager • Event Coordinator • Hotel Reception Manager
- Project Manager • Self Employment • Consultant ...

**Tourism and Hospitality Management**

**Hotel and Restaurant Management**

## If you dream of a future in the Hospitality and Tourism Business

### The Study Programme

The programme covers a number of subjects which are divided into compulsory modules and specialisation modules.

#### Compulsory modules:

- Methodology
- Service Industry: Service Management and Law
- Organisational Development: Leadership and Organisation
- Business Development: Marketing, Strategy and Innovation
- Service Economics: Global Economy and Financial Management
- Communication: Business English and Intercultural Management

### Specialisation Module

We offer two different specialisations:

**Tourism and Hospitality Management**  
*and*  
**Hotel and Restaurant Management**

### Tourism and Hospitality Management:

- Leisure and Business Tourism
- Incoming and Outgoing Tourism
- Sustainable Tourism
- Tourism Planning
- Tourism Marketing

### Hotel and Restaurant Management:

- Strategic Business Analysis
- Food and Beverage Management
- Guest Relations
- Conference and Meetings
- Yield Management

"Studying Tourism at Dania is great! We are always in direct contact with companies for projects and workshops. I think this is the perfect way to get a glimpse of the real-life business in the industry we are passionate about."

**Maja Møller**  
**Hospitality and Tourism Management**

# Bachelor Degree in INTERNATIONAL HOSPITALITY MANAGEMENT

## JOB OPPORTUNITIES:

- Sales Manager
- Project & Event Manager
- Tourism Consultant
- Guest Relations Manager
- Front Office Manager
- Conference Manager

The Bachelor Programme (BA) is a 1 ½ year top-up programme for AP graduates (and applicants with similar qualifications)

# Bachelor Degree in INTERNATIONAL HOSPITALITY MANAGEMENT

## Hospitality is an Expanding Business

There is a great demand for qualified staff who provide services to a high degree of customer satisfaction.

Successful business is achieved through highly motivated employees operating in areas such as strategic planning, human resource management, guest handling and marketing.

## Working with Hospitality

The Hospitality Industry covers a broad range of service businesses, including accommodations, event planning and management, theme parks, airlines and transportation, restaurants, conference facilities and other businesses within the tourism sector.

Get an education for an expanding business focusing on exciting adventures, happy holidays, fun events and first-class hospitality.

The study programme gives graduates a vast variety of opportunities within the hospitality area. Graduates have splendid career opportunities around the world.

## Curriculum

There are 3 semesters equivalent to 90 ECTS-credits.

The programme covers a number of core subjects, all of which are designed in close cooperation with leading businesses.

### 1st semester

- Economics
- Leadership
- Philosophy of Science

### 2nd semester

- Cultural Awareness (including a 5 day study trip abroad)
- Customer Relations
- Business Strategy
- Elective module (Social Media / Event Management)

### 3rd semester

- Internship
- Bachelor Thesis

## Teaching Methods

The programme includes lectures, case studies, projects, group work, assignments, company visits and an internship period.

We expect students to be highly involved in their education. Attendance is compulsory and we expect students to work independently and focused at all times.

## Internship

Test your skills in a company

The internship lasts 3-5 months and is an integrated and compulsory part of the education.

As an internship student you get a chance to test your theoretical knowledge in a real-life company, you get practical and personal experience and create a network within the industry.

## Choosing your Internship Company

Our students have internships in a variety of companies all over the world. Many internship students work in hotels, tourist agencies and holiday companies. The long list of internship companies includes names such as Hilton (UK), Scandic (DK), Radisson Blue (DK), Aarhus Charter (DK), Sheraton (Poland), I Love Chile (Chile), Flensburg Fjord Tourismus (Germany), Visit Aarhus (DK), Lakeside Resort (Cameroun), Comwell A/S (DK), Billund Airport (DK), GreenGate Incoming (Faroe Islands), Harbour Front Centre (Canada), Dehab Divers Hotel and Diving Center (Egypt), Cairncross Martin (Dubai, UAE) and many more.

## THE HOSPITALITY INDUSTRY

- A fast growing business area
- An engine for future growth
- Demands qualified employees

# Student Finances

## Student jobs

Many international students at Dania choose to find a part-time job to finance their student life in Denmark. This is fine as long as the job does not interfere with the students' attendance at the full-time study programme.

If you are looking for a part-time job, Dania's international office can assist you with information on working permit and taxation.

## School-Related Expenses

All students will have to purchase textbooks and other educational material and pay for field trips etc.

The expenses for text books for a two-year study will amount to approximately 600 €.

In addition to school-related expenses, you will need to consider your living expenses, which will

depend on your spending habits and lifestyles.

A general estimation of the living costs including local transportation, accommodation, food and other personal expenses is 700 € per month. However, according to several of our international students, they can get by for less than that.

## Accommodation

Most of our international students choose to live in the student dormitories.

Should you prefer to live in a privately rented accommodation, the rent will typically be higher. You should expect to pay at least 3-400 € for a 2-room apartment (excluding electricity, water, heating and internet) plus a deposit corresponding to 3 months' rent.

## Language Courses

- Both in Viborg and
- Randers, the city offers
- FREE Danish language
- courses for foreigners
- living there.
- Please contact Dania's
- International Offices for
- additional information.

# Tuition Fee

There are no tuition fees for EU/EEA and Nordic Students. Students from non-EU countries normally pay tuition fees. We charge a small administration fee for all students.

Please check [eadania.com](http://eadania.com) for the specific rates.

Most programmes offer study trips which are paid separately by all participating students.

**No tuition fees  
for EU/EEA and  
Nordic students!**

# The Danish Educational System

## Academy Profession (AP) Programmes

The programmes normally last two years (120 ECTS credits). They combine theory and practice in one programme.

The programmes are developed in close cooperation with businesses and the industry.

All AP programmes feature a compulsory internship. AP programmes are also characterised by having small-size classes and close contact between students and lecturers.

## Professional Bachelor's Programmes

The Professional Bachelor's (BA) programmes combine theoretical study with practical application. Internships are always included in the programmes.

The length is from 1½ - 3½ years. (90 ECTS-credits for 1½ year Top-up programmes - 210 ECTS-credits for 3½ year BA Programmes).

## Master's Programmes

The Master's programme is research-based and gives students theoretical knowledge combined with the ability to apply this practically. Master's programmes normally last 2 years. (120 ECTS-credits)

*"I genuinely enjoy studying in Denmark. The educational system is completely different from my home country. Study programmes are practice oriented and therefore we have the chance to meet and work with real-life companies from the first semester. Basically, as graduates, we are already prepared for the business world! Also, the structure of the education is exciting. I have the opportunity to complete the stages of my training in multiple places."*

**Ligia Ungur**  
Marketing Management

# Top-up Studies

## Top-up Studies

Dania University of Applied Sciences has agreements with a number of Danish and foreign universities about accepting graduates from Dania's programmes for top-up degrees.

Students will be accepted at these universities based on an individual assessment of qualifications.

Additionally, our students may apply for a top-up degree at any university of their choice, presenting their Diploma and the study curriculum. The university will then evaluate the student's results and the contents of the education completed at Dania.

Universities decide if they will admit AP students. High grades are required to be admitted at some universities.

## Top-up Partners

**Southampton Solent University**  
*Hospitality & Tourism, Event, Marketing, Retail/Commerce*  
- BA level.

**Sheffield Hallam University**  
*Hospitality & Tourism, Event, Marketing, Retail/Commerce*  
- BA level.

**University of Plymouth**  
*Hospitality & Tourism, Marketing.*

**International Business School, Budapest** *Marketing, Finance* - BA and MA level.

**Breda University of Applied Sciences NHTV**  
*Hospitality & Tourism BA and MA level.*  
*Leisure Management BA*

**Aalborg University**  
*BSc in Economics and Business Administration; Master of Tourism.*

**Aarhus School of Business / Aarhus University**  
*Marketing, BA level*

**Harstad University College – Høgskolen i Harstad**  
*Hospitality & Tourism, Marketing*  
- BA level

## Accommodation in Randers

Most of our international students in Randers choose to live at the student dormitory *Randers Kollegiegård*.

Other students prefer to live in the modern *youth apartments* right on the campus area in Randers.

And finally some students rent a room or a flat from a private house owner.

The dormitory is situated 8 km from Dania. From the dormitory there are several bus lines going downtown and direct bus connections to the Academy.

The dormitory rooms are furnished, but you must bring

your own linen, sheets and covers or a sleeping bag. Also, you have to supply your own cutlery and china as well as cookware. Prices range from 1,530 - 2500 DKK per month.

The youth apartments are rented unfurnished and prices range from 3,200 - 3,400 DKK per month.

The deposit is at least 3 month's rent.

## Accommodation in Viborg

The city government in Viborg guarantees accommodation for all incoming students.

The majority will get a room at the new modern dorms next door to the campus area.

Prices range from 1,930- 4,230 DKK per month.

Sharing an apartment is also an option, with the cost per person starting at around 1,200 DKK per month.

The dormitory is situated 200 m from Dania.

Guaranteed accommodation.

## Admission

All applicants must have an upper-secondary education, 12 years of High School or equivalent. Sufficient English skills must be proven by an official language test.

Other appropriate educational backgrounds may be approved by Dania. Please contact the International Department for further information.

We conduct interviews with all our applicants prior to final admission. This is necessary to ensure the right match of programme and applicant and to ensure that the applicant has an appropriate level of English.

## How to Apply

The deadline for application is March 15 for all applicants.

EU applicants apply online at [www.optagelse.dk](http://www.optagelse.dk) (Please read guide carefully).

For enquiries concerning admission after 15 March please contact our International Department at [international@eadania.dk](mailto:international@eadania.dk)

## International Study Counsellors

Danias' International Department at both Campus Viborg and Campus Randers have English speaking Study Counsellors who will help students with everything regarding living and studying in Denmark

Just contact [international@eadania.dk](mailto:international@eadania.dk) and you will be directed to the right member of staff.
